Dear Faculty:

\_\_\_\_\_ has expressed interest in applying for the 2009 Nursing Student in Sacramento Internship (NSSI). The NSSI is an extensive legislative practicum in the state capital. Interns will be introduced to the legislative process through lecture and hands-on experience. Past participants have described the experience as invaluable to their development as pre-professionals; however the NSSI requires a week long commitment, starting with RN Lobby Days (April 19<sup>th</sup>-20<sup>th</sup>) and ending with the NSSI (April 21<sup>th</sup>-23<sup>th</sup>), during which the student will be missing both class and/or clinical. The California Nursing Students' Association believes that academic and clinical development of nursing students should be first priority. If you believe this student could benefit from this experience and will be able to arrange alternative assignments/clinical please indicate your support by signing below.

Thank you.

Best regards,

Kelly Bowker
