CHERINA VON STUMM

MEMBER OF THE MONTH

MONTEREY PENINSULA COLLEGE • MAY 2021

Cherina is an amazing Vice President for her CNSA Chapter at Monterey Peninsula College. She serves on the curriculum committee, sends out announcements about conventions and scholarships, has created several junior and senior mentoring events, volunteers at COVID vaccine clinics, and helped plan a panel for COVID nurses to talk to nursing students about their experiences battling the pandemic. While not in school, Cherina works at Community Hospital of Monterey as an emergency department technician.

Do you know someone who exhibits CNSA's core values of professionalism, mentorship, leadership, stewardship, advocacy & activism? Following a year of hardship and challenges, we want to recognize our members for their ability to adapt and overcome these challenges. As an organization, we see the need for unity and want to showcase these great individuals we get to call members. Please [Click Here](#) and fill out the form with their achievements and acts of service that you believe they need recognition.

Member of the month will be announced in the third week of each month. After being nominated, this person will be announced on all social media platforms as well as on the Shift Report in the following month. At this year's convention we will compile all of the "Member of the Month's" and pick CNSA's first member of the year which will receive an award/gift.

Optimizing health through nursing

IF YOU ARE ENROLLED IN A
PRELICENSURE NURSING
PROGRAM, READ BELOW!

Nursing students enrolled in California RN prelicensure programs are invited to participate in an important survey regarding economic and social factors that may influence health and educational experiences. This invitation distributed by California Nursing Students Association (CNSA) to CNSA members, may be forwarded to any other RN prelicensure student to participate. Understanding the health and well-being of nursing students is of great importance to nursing programs, the California Board of Registered Nursing, employers, and the nursing community. Understanding issues involving the health and well-being of nursing students informs strategies to support student success and informs planning for the RN workforce needed in California.

Your participation is very important. The identity of those responding to the survey is not collected or known. Survey results will be reported as aggregate data. The results will inform academic institutions, healthcare facilities, and policy makers working on solutions to support student success and transition to employment. The survey is available on-line, please allow 10-12 minutes to complete it through the link below:
