Nursing students enrolled in California RN prelicensure programs are invited to participate in an important survey regarding economic and social factors that may influence health and educational experiences. This invitation distributed by California Nursing Students Association (CNSA) to CNSA members, may be forwarded to any other RN prelicensure student to participate. Understanding the health and well-being of nursing students is of great importance to nursing programs, the California Board of Registered Nursing, employers, and the nursing community. Understanding issues involving the health and well-being of nursing students informs strategies to support student success and informs planning for the RN workforce needed in California.

Your participation is very important. The identity of those responding to the survey is not collected or known. Survey results will be reported as aggregate data. The results will inform academic institutions, healthcare facilities, and policy makers working on solutions to support student success and transition to employment. The survey is available on-line, please allow 10-12 minutes to complete it through the link below:

SAN DIEGO STATE UNIVERSITY • APRIL 2021

MEMBER OF THE MONTH

This month's MOTM is extra special, our very own Nina Go. Nina is a member of our communications committee. She works very hard behind the scenes to organize and gather information for our monthly Shift Report. She creates most of the graphic designs and is punctual to process it out by the first of each month. Outside of the CNSA organization, she attends SDSU and is a member of many of their clubs as well. Currently, it seems she is working on fundraising for Rady's Hospital in San Diego. Nina is caring, insightful, and we are so happy to have her apart of our communications committee.

Keep striving to the success you want, we're all cheering for you.

Thank you for all that you do Nina!

Do you know someone who exhibits CNSA's core values of professionalism, mentorship, leadership, stewardship, advocacy & activism? Following a year of hardship and challenges, we want to recognize our members for their ability to adapt and overcome these challenges. As an organization, we see the need for unity and want to showcase these great individuals we get to call members.
